

AROUND NINE GAME LAYOUT

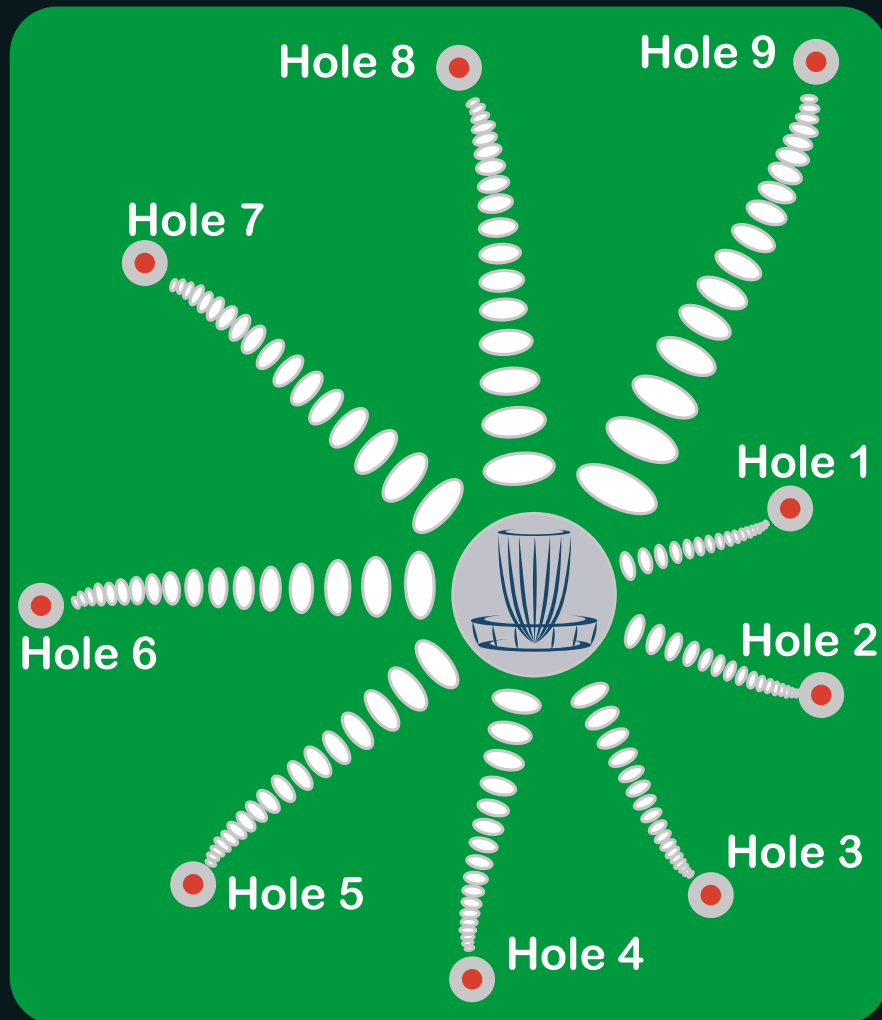

One attempt is made from each throwing position starting at hole No.1. Points are scored each time the disc thrown comes to a rest in the Disc Pole Hole®.

The number of points awarded is based on the throwing position number. For example, Hole 4 equals 4 points, hole 5 equals 5 points, etc., with the maximum possible score being 45 points.

The success of the Around Nine® Game will depend on its installation and how it is presented. Schools, hospitals and parks have installed this game with amazing results.

Indoors or outdoors the Around Nine® Game will provide hours of fun for young and old alike. All that is required is a disc and a minimal amount of hand-eye coordination. The nine throwing positions can be set up in a straight line or in a spiral pattern from the hole.

Outdoors: it is preferable to use the spiral pattern which allows the wind direction to be an additional factor in each throw. The spiral pattern also allows nine people to play at the same time.

HOLE & DISTANCE

Hole #1	—————	12 feet
Hole #2	—————	14 feet
Hole #3	—————	16 feet
Hole #4	—————	18 feet
Hole #5	—————	20 feet
Hole #6	—————	22 feet
Hole #7	—————	24 feet
Hole #8	—————	26 feet
Hole #9	—————	28 feet
